## Joomla extension Media Library

30-Mar-2017 10:19:06

Currently media websites are become more and more popular, so OrdaSoft created a new Joomla extension OS Media library. OS Media library software provides a full-featured media library or media collection management environment on a Joomla based website and allows you to manage large media libraries. Also OS Joomla extension connected with VirtueMart, so it allows media buying, supports with Amazon.com ASIN and allows you to create menu item. Now you don't have to use a lot of individual Joomla extensions (video extensions, game extensions etc.), you can create media website only with help OS Media library! It's perfect for those, who wants to get ready media websites: media agency, online media library, online store for selling Music, Movies, Books, Games CD, DVDs, Blu-ray, e-books etc. Also your users will be able to get acquainted with audio/video files using media player (audio player, video player). Many objectives - one Media library software!
